### HERTLING CANNOT CHANGE WAR OR PEACE AIMS

(International News Service.)  
Washington, July 13.—Nothing Imperial Chancellor Von Hertling of Germany, can say will change the war aims or the peace terms already laid down by America and her allies.  
This was emphatically stated today in administration circles, following the German chancellor's speech in the reichstag, hinting that "no annexation" policy has won. His address was generally accepted here as a confession of Germany's weakness—that Germany would at this minute be willing to enter into peace negotiations provided she had some assurance that she could, under the terms, dominate Russia.

The chancellor's statement that "President Wilson wants until we are destroyed," was seen in official circles here as the cry of a beaten nation—or at least of a nation that realizes defeat looms very close and is uttering the cry of the self-martyr.  
The assertion that German leaders stood ready to receive peace proposals from the allies provided "they were offered in a spirit of sincerity," officials here did not deem worthy of comment. In fact it was met with smiles in many quarters. The plea for a "spirit of sincerity" coming from the source that it did seemed to amuse, rather than interest.

Weakness was seen almost in every line. The plea that Germany was forced into the war has now been changed. It was pointed out to one that the allies are forcing Germany to continue the war—renewed utterances by both President Wilson and Lloyd George, the chancellor said, leave the continuation of the war as Germany's only choice. The answer here was that our peace terms and war aims have been pronounced plainly and openly and that they are known to be anything but the terms the imperial German chancellor, coloring them in his own language, would have them appear to be.

## UNITED STATES LAUNCHES FIRST BOMBING PLANE

The first bombing plane to be sent into the air in America, and the one which may fly across the Atlantic, was launched at the plant of the Standard Aircraft corporation at Elizabeth, N. J. It is a Handley-Page machine of great size, as is shown by the top photograph, picturing the huge nose of the plane and the double machine guns mounted in it. The lower picture shows it in flight. The huge machine was christened "Langley" and was successful in its first flight. Many prominent persons witnessed the launching.

## NEWS of WORLD MARKETS

### STOCK DEALINGS FALL TO SMALLEST TOTAL

New York, July 13.—The week-end session of the stock exchange was altogether superficial, dealings falling to the smallest total of the year. Fertilizers, papers and other specialties of more obscure origin were 1 to 2 points higher at their best. Sumatra tobacco was most erratic of the speculative issues at an extreme decline of 3 1/2 points. Rails were completely ignored and numerous other prominent issues failed of quotations.  
The closing was steady. Promptly approximated 100,000 shares.  
Liberty 3 1/2 sold at 99.60 to 99.64; first and second 4 1/2 at 99.30 to 99.34; second 4 1/2 at 99.30 to 99.34; third 4 1/2 at 99.30 to 99.34. Second and third 4 1/2 were quoted for the first time today.

### PRESIDENT'S VETO CAUSES SHARP BREAK IN CORN

Chicago, July 13.—Sharp breaks in the corn market resulted today from President Wilson's veto of the bill to hoist the guaranteed price of wheat. Opening quotations, which ranged from 2 1/2 to 2 3/4 lower, with August \$1.60@1.61 and September \$1.59@1.60, were followed by additional setbacks, although not of a radical sort.  
Oats, like corn, sagged owing to the veto and the favorable weather. After opening unchanged to 3/4c lower the market underwent a moderate further decline. Provisions gave way with grain. Advances in the hog market failed to act as an offset.  
The close was unsettled, 50 1/4c net lower, with August \$1.61@1.61 and September \$1.60@1.61.

### TEXAS SHOWERS CAUSE ACTIVITY IN COTTON

New York, July 13.—Reports of showers in west Texas encouraged hope of a break in the drought and led to considerable selling in the cotton market at the opening today. First prices were 2 to 10 points lower, with July selling at 27.70c and October at 24.40c after the call, or 10 to 22 points net lower. The expectation of further or more general showers in Texas was disappointed by the western belt forecast for generally fair weather, however, and the market rallied several points on covering. There was also scattered buying on the report of a southwestern authority placing the condition at 81.6, compared with end-June figures of 84.7, thus indicating deterioration of 3.1 per cent. for the first half of the period. Private advices reported favorable conditions and prospects for an early movement in Oklahoma and north Texas. The mid-morning rally carried prices about 6 to 9 points net higher, with October selling at 24.70c and December at 24.40c, the market was checked at this level by realizing, which became more active following later private advices of showers in the southwest, and the market closed barely steady at a net decline of 2 to 17 points.

New Orleans, July 13.—Scattered showers in Texas caused selling of cotton today which cost the price 25 to 35 points in the first half-hour of trading. Late in the session the market was soft again and stood at a net decline of 9 to 13 points.
